

# RAMAPPA HANAGAL

Technical Lead | IT Lab Operations & Infrastructure Management

Sarjapura, Bangalore | 9964375609 | ramappa.hanagal@gmail.com | linkedin.com/in/ramappa-hanagal

## EXECUTIVE SUMMARY

Strategic Technical Lead with 17+ years of expertise in hardware infrastructure, silicon validation, and global lab operations management. Proven track record in optimizing IT lab lifecycles, procurement processes, and complex hardware troubleshooting. Expert in bridging the gap between hands-on engineering and high-level enterprise operations. Leveraging AI tools and Cloud technologies to enhance operational efficiency, reduce downtime, and ensure 100% compliance in high-security environments.

## CORE COMPETENCIES

- **Lab Operations & Equipment Handling:** End-to-End IT Lab Lifecycle Management, Asset Governance, Procurement & Vendor Management, Compliance & Security. Expert in handling IT lab equipment like Agilent Power Supplies, Oscilloscopes, DAQ, and other lab systems and equipment.
- **Hardware Engineering:** Technical Analyzing in high-comprehensive devices like Google Pixel, Apple iPhones, other smartphones, 5G devices, tablets, laptops, desktops, and High-Precision Soldering (SMD/BGA), Signal Integrity Assessments, Hardware Bring-up, Debugging, Deployment (EVT/DVT), and Technical support for engineers.
- **Technical Leadership:** Workforce Mentorship, Incident Management, Process Optimization, Strategic Sourcing (Ariba).

## PROFESSIONAL EXPERIENCE

### Technical Lead Analyst | Tech Mahindra (Tier-1 Client), Bangalore

April 2025 – Present

- Directing complex hardware infrastructure workstreams, ensuring 100% alignment with global project milestones.
- Leading signal integrity and component-level debugging for 5G and AI-enabled hardware to drive reliability.
- Optimizing PMIC and RAM cost structures via Ariba, facilitating data-driven procurement strategies for senior leadership.
- Executing advanced physical teardowns to analyze high-density PCB integration and thermal management strategies.

### Validation Engineer / Team Lead / Lab Admin | UST Global (Intel Client), Bangalore

2014 – 2025

- Spearheaded material control and asset tracking protocols, maintaining 100% audit accuracy for multi-million dollar silicon assets.
- Directed standardized diagnostic workflows for EVT/DVT platforms, reducing total debug cycle times by 15%.

- Negotiated enterprise-grade service contracts for lab equipment, balancing top-tier maintenance with significant budget optimization.
- Enforced strict hardware security and compliance standards, maintaining zero-leakage protocols within high-sensitivity lab environments.

## TECHNICAL SKILLS & EXPERTISE

---

- **Generative AI & Cloud Technology:** Intelligent AI Agents, Multi-modal AI Analytics, and Workflow Automation. Proficient in AI tools like ChatGPT, Google Gemini, CLAUDE, NotebookLLM, Flow.ai, Whisperflow.ai, AI Studio, Julius.ai, Comet, n8n.io, and other advanced tools. Comprehensive knowledge of CLOUD Computing, GitHub, and JIRA.
- **Engineering Tools:** Allegro Board File Viewer, Digital Oscilloscopes, Logic Analyzers, Multimeters, PCB Layout Analysis Software.
- **Management Tools:** Ariba, Google Data Studio, ITIL Service Management.

## EDUCATION & CERTIFICATIONS

---

**B.Sc. in Information Technology** – Sikkim Manipal University | **National Apprenticeship Certificate (NAC)** – BEL Bangalore | **ITI Electronics Mechanics** – Govt ITI Kalaghatagi

**Certifications:** AI Accelerating Program (Skill Nation), ITIL Foundation, PMP Training (35 Hours), Future Leadership Program (FLP), Hardware & Networking Certification.

### DECLARATION

---

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
